ABOUT ME

I have developed a widely varied skill set through a love of problem solving, knowledge, exploration and adventure. I have created a work life balance where I am able to travel freely through the world whilst generating an income to further my endeavours.

I have worked in many facets of the customer service industry. I enjoy creating, delivering and ensuring complete satisfaction of exceptional products and subsequent experiences to clients.

For many years I worked concurrently as a Sommelier and Photographer which naturally lead me to Content Creation and Management. I have since returning to study Contemporary Photography in 2013 worked in Remote Customer Support part time to allow full focus on my digital output.
